

Armed Forces University ESPE

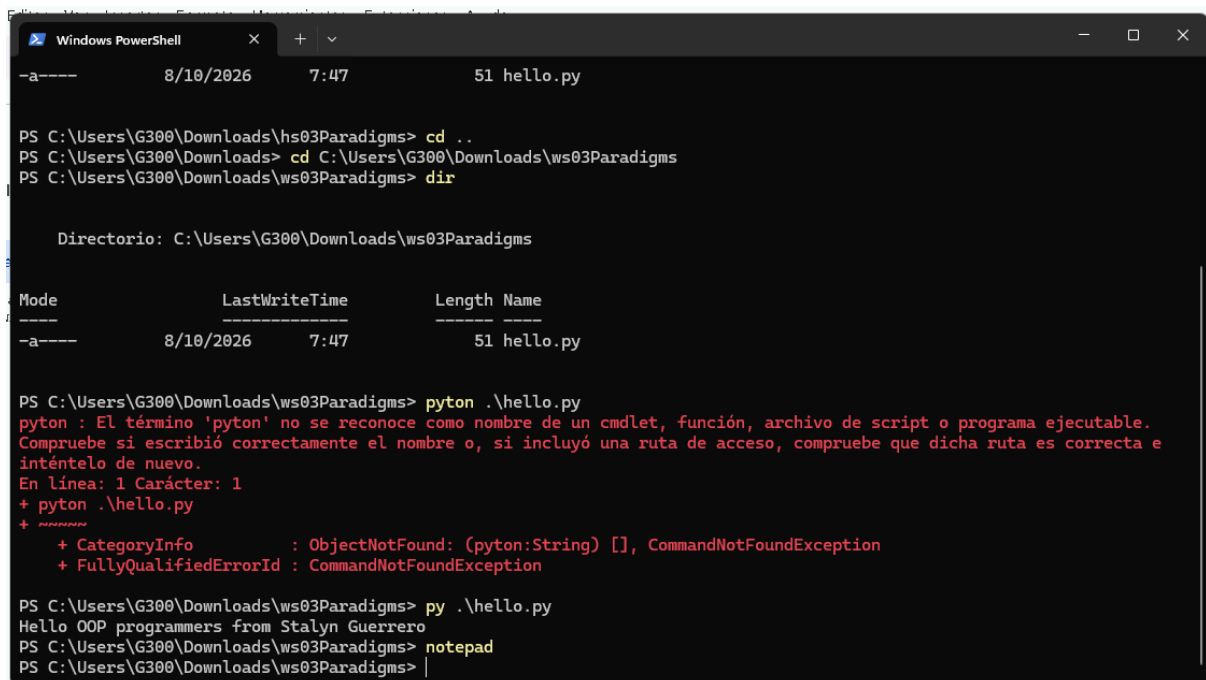

Object Oriented Programming

Workshop Evidence

Name: Stalyn Guerrero

A screenshot of a Notepad window titled "Untitled - Notepad". The window has a menu bar with "File", "Edit", "Format", "View", and "Help". Below the menu bar, there is a yellow notification bar that says "A new version of Notepad is available." with a "Launch" button. The main text area contains the following code: `console.log (Hello from Stalyn Guerrero using TypeScript);|`. The status bar at the bottom indicates "Ln 1, Col 59", "100%", "Windows (CRLF)", and "UTF-8".

A screenshot of a Windows PowerShell window. The window title is "Windows PowerShell". The prompt shows the current directory as `C:\Users\G300\Downloads\ws03Paradigms`. The user has entered the command `dir`, and the output shows a directory listing for `C:\Users\G300\Downloads\ws03Paradigms`. The listing includes a file named `hello.py` with a size of 51 bytes, last write time of 8/10/2026 7:47, and mode `-a----`. The user then enters the command `python .\hello.py`, which results in an error: `python : El término 'python' no se reconoce como nombre de un cmdlet, función, archivo de script o programa ejecutable. Compruebe si escribió correctamente el nombre o, si incluyó una ruta de acceso, compruebe que dicha ruta es correcta e inténtelo de nuevo. En línea: 1 Carácter: 1 + python .\hello.py + ~~~~~ + CategoryInfo : ObjectNotFound: (python:String) [], CommandNotFoundException + FullyQualifiedErrorId : CommandNotFoundException`. The user then enters the command `py .\hello.py`, which successfully executes and outputs `Hello OOP programmers from Stalyn Guerrero`. Finally, the user enters the command `notepad`, which opens the Notepad application.
