Evidence

```java
@Test
public void testCalculateWork1() {
    float result = work.calculateWork(10.0F, 5.0F);
    assertEquals(50.0F, result, 0.001F);
}

@Test
public void testCalculateWork2() {

    float result = work.calculateWork(2.5F, 4.0F);
    assertEquals(10.0F, result, 0.001F);
}

@Test
public void testCalculateWork3() {

    float result = work.calculateWork(100.0F, 0.5F);
    assertEquals(50.0F, result, 0.001F);
}

@Test
public void testCalculateWork4() {

    float result = work.calculateWork(7.5F, 2.0F);
    assertEquals(15.0F, result, 0.001F);
}

@Test
public void testCalculateWork5() {

    float result = work.calculateWork(10.0F, -5.0F);
    assertEquals(50.0F, result, 0.001F);
```
